Reference/Testimonial for Sergej Grisanov / UAB "Grijana"

I have had the pleasure of working with Sergej and Grijana for the best part of 2017 in relation to some QAQC Inspection services that we required locally in Lithuania. In the first instance I called Grijana and spoke to Sergej who offered a very professional service that included top quality QAQC personnel at a very competitive price in comparison to other third party inspection companies that I had spoken with in the area.

Since the first contact Grijana keeps in regular contact with myself, answers queries and any problems quickly and efficiently and I would have no hesitation to use this company again for future QAQC requirements on a Global basis.

Yours Sincerely

Nathan Brooks
