

Reference to UAB GriJana

18.11.2019

Scana Offshore AS confirms that UAB GriJana has provided inspection services during fabrication execution at our sub-supplier's premises in Lithuania and Estonia. Typical projects are fabrication off Offloading systems for FPSO and Mooring systems for fish farming.

Tasks of UAB GriJana during project execution at sub-supplier premises was:

1. HSE monitoring
2. Project follow up (progress & workmanship)
3. Welding Inspection and control
4. Painting Inspection and control

All tasks were executed timely and in good manner.

UAB GriJana has provided excellent support during project execution.

Scana Offshore AS can recommend UAB GriJana team.
